## Product Details

- Accuracy up to 0.001"
- Depth Rod Lengths up to 6"
- Ratchet Stop for Accurate, Repeatable Measurements

Mitutoyo Depth Micrometers are designed for precise measurement of deep grooves, holes, and recesses with accuracy up to 0.001". These micrometers are constructed with a durable carbide-tip spindle for increased wear resistance and enhanced measurements stability. A ratchet stop mechanism provides uniform pressure to ensure consistent results regardless of depth. Mitutoyo Depth Micrometers are ideal for a small and large-scale applications in manufacturing, industrial, and research environments.
