Product Details

- Bore Gauges Available in Two Form Factors
 - Radius Gauge Leaves Ranging from 0.01" to 0.5"
 - Ideal for Automotive, Aerospace, and Manufacturing Applications
- Mitutoyo Bore and Radius Gauges provide multiple form factors to match application needs for measuring bore sizes and radii of features. Bore gauges are available in either a six-piece telescoping set ranging from 5/6" to 6" or as a single handle gauge with a self-centering bridge and 11 interchangeable anvils ranging from 2" to 6". Radius gauges are designed to quickly measure the radii of internal and external curves and feature a steel construction with a satin chrome finish to withstand rigorous use while maintaining accuracy. Mitutoyo Bore and Radius Gauges are ideal for a range of applications in the automotive, aerospace, and manufacturing fields from research and development to quality control.
