Product Details

- Absorbs Unwanted or Unused Laser Beams
- 10mm Entrance Aperture
- [Posts](#) and [Post Holders](#) Required for Mounting

A necessity in every lab, the beam dump traps beams entering the aperture and quickly absorbs them. This increases safety by reducing the risk of interference or damage caused by scattered laser light. The 10mm aperture is large enough to accommodate most laser and laser diode beam sizes. [Posts](#) and [Post Holders](#) are required for mounting to a breadboard.
