## Product Details

- Ideal for Prototyping
- Matched to Mechanical Components
- Note: Potential change of packaging

A complete kit of precision optical components in stepped increments of focal length for systematic evaluation of optical system designs. Optics fit the mechanical components in the [C-Mount Component Kit](#) and can be found as individual components within our online catalog by following the links below.

**Note:** Due to supply chain issues, our kits may be delivered with an alternative packaging solution in place of a wooden box. For any questions, please contact [kits@edmundoptics.com](mailto:kits@edmundoptics.com).
