Product Details

• Ideal for Ball Lenses and GRIN Lenses as small as 1mm Diameter

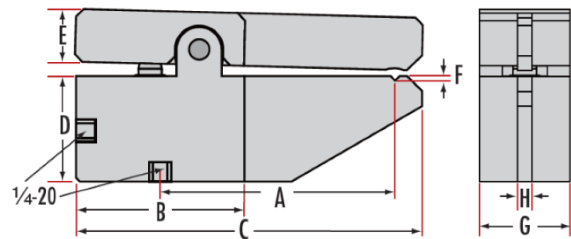

• Spring-Loaded to Hold Small Diameter Optics

• 1" Offset Design Allows Easy Placement with Shorter FL Lenses

• 1/4-20 TPI Mounting Thread

TECHSPEC® Small Optic Mounts are ideal for mounting 1 - 8mm diameter lenses. The clamps can be mounted horizontally, where the optical centerline is on a 25.4mm offset from the mounting centerline, or mounted vertically, where the optical centerline is 44mm higher than the post-mounting flat surface. TECHSPEC® Small Optic Mounts feature a spring-loaded construction that ensures secure mounting of small diameter lenses regardless of orientation. The mounting clamp width (2mm for #12-869, 3.5mm for #13-800) is thin enough to allow two short focal length lenses to be placed directly next to each other. These mounts include 1/4-20 TPI threads for post mounting and can be adapted to metric posts with adapter [#53-928](#) to easily integrate into any bench-top system.
